Basics of Drawing

Three Saturdays, October 10, 17, 24, 2020

9 am to 12 noon, or when convenient for students

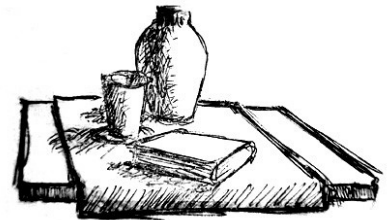

Taught by Ellen Schwarzbek

Full Circle Arts members \$30, non-members \$35, for all three sessions.

Class space limited to three students, so please register early.

Drawing is the foundation of all the visual arts.

This class is for beginners and for those who want to refresh their skills in seeing what they wish to draw. Each Saturday morning we will set up a still life and study it carefully, emphasizing one of the following approaches:

1. Perspective
2. Composition with negative space
3. Light and form

Students should bring several sheets of drawing paper, pencil or charcoal, and a good eraser.

You may not leave with a beautiful drawing, but you will understand better some of the fundamentals.
